BUDGET ADOPTION AND REVISION

The County Board of Education recognizes its critical responsibility for adopting a sound budget each fiscal year, which is aligned with and reflects the Lassen County Office of Education (LCOE) vision, goals, priorities, local control and accountability plan (LCAP), and other comprehensive plans. The LCOE budget shall guide decisions and actions throughout the year and shall serve as a tool for monitoring the fiscal health of the LCOE.

It is the responsibility of the County Superintendent of Schools or designee to develop a budget to be adopted within the time limits set by law. The budget shall show a complete plan and itemized statement of all proposed expenditures in each fund of the LCOE, and the estimated cash balances and estimated revenues of the LCOE for the current budget year and for the next two fiscal years. The budget shall include a comparison of expenditures, cash balances, and revenues estimated for the budget year with the unaudited actual amounts of the expenditures, cash balances, and revenues for the prior fiscal year.

The budget shall be developed in accordance with standards and criteria adopted by the State Board of Education. (Education Code 33127, 33129; 5 CCR 15467-15479)

In reviewing a proposed budget, the County Board may consider past, current, and future fiscal obligations of the LCOE, stability of funding sources, the LCAP, enrollment trends, anticipated increases and/or decreases in the cost of services and supplies, use of one-time resources, and any other factors necessary to ensure that the budget is a realistic plan for LCOE revenues and expenditures.

The LCOE budget shall include a general fund reserve for economic uncertainty that meets or exceeds the requirements of 5 CCR 15474.

Adoption of County School Service Fund Budget

The County Board expects the County Superintendent or designee to present the proposed county school service fund budget to the County Board early enough in the fiscal year to allow the County Board sufficient time to meet the requirement to adopt the budget by July 1. The budget shall include the expenditures identified in the LCAP and any updates to the LCAP that will be effective for the budget year. (Education Code 1622)

The County Board shall hold a public hearing on the proposed budget at the same meeting as the public hearing on the LCOE's LCAP and Local Control Funding Formula (LCFF) budget overview for parents/guardians. An agenda for this hearing shall be posted at least 72 hours before the hearing and shall indicate the location where the budget may be inspected. The proposed budget shall be available for public inspection at least three working days before this hearing. During the hearing, any taxpayer directly affected by the budget may speak to the proposed budget or any item in the budget. (Education Code 1620, 52064.1)

BUDGET ADOPTION AND REVISION

At a public meeting held after the date of the public hearing, but on or before July 1 of each year, the County Board shall adopt a county school service fund budget for the budget year. The County Board shall adopt the budget following its adoption of the LCAP, or annual update to the LCAP, and the LCFE budget overview for parents/guardians. (Education Code 1622, 52064.1)

The County Board shall file the adopted budget with the Superintendent of Public Instruction (SPI). (Education Code 1622)

If the SPI disapproves the county school service fund budget, the County Board and County Superintendent shall review and respond to the SPI's recommendations at a regularly-scheduled County Board meeting on or before October 8. That response shall include the proposed actions to be taken, if any, as a result of those recommendations. (Education Code 1622)

No later than 45 days after the Governor signs the annual Budget Act, it is the responsibility of the County Superintendent to make available for public review any revisions made to the budget to reflect the funding made available by the Budget Act. (Education Code 1622)

Transfer of Funds

The County Board recognizes that the County Superintendent or designee may spend funds appropriated in the budget within major object budget categories without County Board approval and may make transfers of appropriated funds between major object budget categories to meet necessary expenses. Any transfer of funds between major object budget categories shall be included in timely financial reports to the County Board.

Financial Reports

The County Board shall review interim budget reports presented by the County Superintendent twice annually. The First Interim Report shall cover the financial and budgetary status of the LCOE for the period ending October 31. The Second Interim Report shall cover the period ending January 31. Both reports shall be reviewed by the County Board no later than 45 days after the close of the period being reported. (Education Code 1240)

Budget Revision

As defined in the California School Accounting Manual, a budget revision means a net increase or decrease to the budget. Any revision to the budget in excess of \$25,000, whether a net increase or decrease in the amount of funds appropriated, shall be incorporated into the next interim financial report or other County Board report and presented to the County Board for discussion and approval at a regularly-scheduled public meeting of the County Board. (Education Code 1280)

BUDGET ADOPTION AND REVISION

Any budget revision of \$25,000 or less may be included in timely financial reports to the County Board but shall not be subject to County Board approval.

A consultant's contract for \$25,000 or more may constitute a budget revision requiring County Board approval if the contract causes a net increase or decrease to the total budget. (Education Code 1280, 1281)

Unappropriated Fund Balance

The budget may contain amounts known as the unappropriated fund balance. These funds shall be available for appropriation by a majority vote of the County Board.

Increases of Salary or Retirement Benefits to Employees by County Superintendent

The County Superintendent shall bring to the County Board at a regularly scheduled County Board meeting for discussion purposes only any proposed salary increase or bonus for any LCOE employee that is \$10,000 or more. The County Superintendent shall also bring to the County Board at a regularly scheduled meeting for discussion and approval any proposed increase to the retirement benefits of any LCOE employee. TRANSFER OF FUNDS

Temporary Transfer Between Funds

Within limits, the Lassen County Board of Education may authorize monies held in any fund to be temporarily transferred from one or more funds to another fund for use in the payment of obligations. (Education Code 42603)

Temporary Transfer of Funds

Whenever, prior to receipt of income, a school district or the County School fund determines that it does not have sufficient funds to meet current expenses of maintenance, the County Board of Supervisors shall, upon receipt of a resolution adopted by a school district governing board or the County Board, cause to be made a temporary transfer from any available funds to the school district or County School Service Fund not to exceed 85% of the anticipated tax income for the year.

The funds so transferred shall be transferred back to the fund from which they were taken before other obligations are paid.

Loans to Local School Districts

The County Superintendent and the County Board recognize that Lassen County School Districts (Districts) periodically face fiscal challenges that may require them to seek a short-term loan in order to meet their fiscal obligations.

It is the intent of the County Superintendent and County Board to consider requests for short-term loans from Districts as specified in Education Code Sections 42621 and 42622:

42621 “The County Superintendent of Schools of each county, with the approval of the County Board of Education, may make temporary transfers to any school district which does not have sufficient money to its credit to meet current operating expenses from the county school services fund, in such amounts and at such times as he deems necessary. Such transfers shall not exceed 85 percent of the amount of money accruing to the school district at the time of transfer. The amounts so transferred shall be repaid to the county school service fund prior to June 30 of the current year from any funds subsequently received by the school district.”

42622 “The County Superintendent of Schools, with the approval of the County Board of Education, may make an apportionment to a school district from the county school service fund conditional upon the repayment to the fund during the next succeeding fiscal year of the amount apportioned to the district and shall, during the next succeeding fiscal year, transfer the amount of such apportionment from the general fund of the district to the county school service fund.”

Before any loan is made to a District, the County Superintendent must provide his/her recommendation on whether such a loan is appropriate and whether making such a loan will negatively impact the county school services fund from meeting its fiscal obligations.

TRANSFER OF FUNDS (Cont.)

Before any loan is made, the District will have completed an appropriate fiscal analysis and have supplied the County Superintendent and the County Chief Business Officer (County CBO) with appropriate documents, as listed in the accompanying regulations, supporting the loan request.

It is the policy of the County Board that any loan will be interest-free for a period of no more than four months from the time funds are transferred. Any loan amounts not repaid within four months shall be repaid with interest equivalent to the average percentage paid by the county treasurer for the same time period. All funds must be repaid by the District by June 30 of the year the loan is made as specified in Education Code Section 42621, or the County Superintendent will transfer the funds from the general fund of the District during the next fiscal year.

4. If funds may be available, the District Board takes action to request a temporary loan from the County Board.
5. The District Superintendent and District CBO submit the loan request in writing, including the purpose for the loan, the amount, when the loan would be needed, and when the loan would be repaid.
6. Within two weeks of the District's request, the County Superintendent and County CBO will review the request and request appropriate documentation, which may include any or all of the following:

 - b. Latest Interim Report
 - c. Available Reserves
 - d. Short-Term/Long-Term Debt Commitments

When required by law, the County Board shall appoint a County Office advisory committee to advise the County Board in the development of policies and procedures governing the use or disposition of schools or school building space which is not needed for school purposes. (Education Code 17388)

Requisitions

Requisitions for budgeted items shall originate from the personnel directly responsible for their use, authorized by the immediate supervisor, and approved by a cabinet member prior to the preparation of a purchase order. The cabinet member must signify the budget classification from which the item will be purchased at the time of approval.

Purchase Orders

Purchase Orders shall originate from the department requesting budgeted items and responsible for their use. The purchase orders shall be signed by an Assistant or Associate Superintendent or Director.

Each purchase order will be issued a number from a master file maintained by Accounts Payable.

Purchase Order payments may be in excess of the previously-approved Purchase Order amount when the excess amount falls within 10%. (This includes freight and taxes.) When the total amount of the purchase order exceeds these parameters, further authorized approval is needed by the Assistant or Associate Superintendent or Director.

Any purchase of supplies, equipment, etc., made by staff members without the proper authority will not be paid for by the county.

Open Purchase Orders

Under the strictest surveillance, Open Purchase Orders may be issued. The conditions for such issues are as follows:

1. Names of persons authorized to purchase or pick up merchandise will be listed and provided to vendors.
2. A notice to the chosen vendor will accompany the initial Purchase Order stating that only invoices with authorized signatures will be paid and that only dollar amounts up to that shown on the purchase order will be paid.
3. Request to increase the amount of the Open Purchase Order must be initiated by the supervisor and signed by the Assistant Superintendent or designee and will become part of the official Purchase Order files.
4. Open Purchase Orders are good for one year and expire on June 30th

PURCHASING PROCEDURES (continued)

Receiving Goods

The person signing for receipt of goods, whether it is delivered by commercial freight, parcel service, or U.S. Mail, and whether it is to the county office building, directly to a department, or some outlying location, must ascertain that the number of packages received is the same as listed on the bill of lading or other mailing receipts.

Damaged Goods

After determining that items are accounted for, packages should be inspected for punctures, crushing or other appearances of possible damage. If such evidence is found a notation must be made on the bill of lading or receipt and signed and dated.

Receiving Reports

When the bill of lading and merchandise arrives at the appropriate department certain steps should be followed:

1. If there is freight damage notify the delivering agency immediately, preferably by phone.
2. If a discrepancy is found within the package as compared to the amount received, notify the vendor immediately by phone.
3. Some solutions could be to return the merchandise and/or invoice for replacement and correction; adjust invoice with vendor approval; partial payment for partial shipment or credit memo and re-invoice.
4. After determining that freight received, bill of lading, and packing slip are all correct, the receiving report, which is a part of the Purchase Order form, should be signed by the department person receiving the goods, authorizing payment, and return to the business department for paying as soon as possible.

BIDS

The Lassen County Office of Education shall purchase equipment, supplies and services using competitive bidding when required by law and in accordance with statutory requirements for bidding and bidding procedures. In those circumstances where the law does not require competitive bidding, the County Superintendent of Schools may request that a contract be competitively bid.

When it has determined that it is in the best interest of the county office, the County Superintendent may piggyback onto the contract of another public agency or corporation to lease or purchase equipment or supplies to the extent authorized by law.

To ensure that good value is received for funds expended, specifications shall be carefully designed and shall describe in detail the quality, delivery and service required.

To assist the County Office in determining whether bidders are responsible, the County Superintendent may require prequalification procedures as allowed by law and specified in administrative regulation.

No work, project, service or purchase shall be split or separated into smaller work orders or projects for the purpose of evading the legal requirements of Public Contract Code 20111-20118.4 for contracting after competitive bidding. (Public Contract Code 20116)

Instructions and Procedures for Advertised Bids

Bidders must be deemed prequalified by the County Office at least one day before the fixed bid-opening date. (Public Contract Code 20111.5)

The County Superintendent or designee shall furnish each qualified bidder with a standardized proposal form. Bids not presented on the standard form shall be disregarded. (Public Contract Code 20111.5)

A protest must be filed in writing with the County Superintendent or designee within five working days after receipt of notification of the contract award. The bidder shall submit all documents supporting or justifying the protest. A bidder's failure to timely file a protest shall constitute a waiver of his/her right to protest the award of the contract.

The County Superintendent or designee shall review the documents submitted with the bidder's claims and render a decision in writing within 30 days. The County Superintendent or designee also may convene a meeting with the bidder in order to attempt to resolve the problem.

A mandatory rotation of the audit firm conducting the audit shall occur no less frequently than every five years.

By January 31 of each year, the County Board shall review, at an open meeting, the annual County Office audit for the prior year, any audit exceptions identified in that audit, the recommendations or findings of any management letter issued by the auditor, and any description of correction or plans to correct any exceptions or any issue raised in a management letter. (Education Code 41020.3)

The County Office of Education recognizes that it is our responsibility to have the skills and knowledge that are necessary to ensure that all financial reporting is accurate and complete in accordance with State of California standards and Generally Accepted Accounting Principles (GAAP). We recognize that it is appropriate to have the abilities within our own personnel, as well as effective policies and procedures for the County Office, to ensure complete and accurate financial reporting, rather than reliance on external auditors.

Accordingly, the County Office will be implementing the following policies:

- 1. All fiscal personnel will be receiving annual continuing education on implementing new Governmental Accounting Standards issued by the GASB, new CDE reporting requirements through SACS, and review of the applicable accounting standards.*
- 2. The County Office will ensure that complete financial statements are prepared by producing government-wide financial reports from the SACS software that will be provided to auditors and reconciled to the County Office's financial activity.*
- 3. The County Office will be using a "disclosure checklist," which will be revised annually for recent GASB pronouncements, to ensure that financial reporting is complete and accurate for the financial statements, Management Discussion & Analysis (MD&A), and footnote disclosures.*

FINANCIAL REPORTS AND ACCOUNTABILITY (continued)

4. *The County Office will review the government-wide financial statements prepared by the Districts, as well as the District's disclosure checklists, annually.*

Fund Balance

In accordance with GASB Statement 54, external financial reports shall report fund balances in the general fund within the following classifications based on the relative strength of constraints placed on the purposes for which resources can be used:

1. Nonspendable fund balance, including amounts that are not expected to be converted to cash, such as resources that are not in a spendable form or are legally or contractually required to be maintained intact.
2. Restricted fund balance, including amounts constrained to specific purposes by the Board.
3. Committed fund balance, including amounts constrained to specific purposes by the Board.

The County Superintendent or designee shall plan for the implementation of the Governmental Accounting Standards Board Statement 45, including the procurement of a qualified actuary to perform the required actuarial study. In addition, the County Superintendent or designee shall recommend actions to the County Board that mitigate the financial impact to the district as a result of this change in the method of accounting for post-employment health and welfare benefits.

Investment Reports

Within 30 days of the end of each quarter, the County Superintendent or designee may provide the County Board with quarterly reports of County Office investments that are more than \$25,000. (Government Code 53646)

4. Lead exposure hazards shall be evaluated before any renovation or remodeling is begun, and children shall not be allowed in or near buildings in which these activities may create lead dust. Contractors and workers shall comply with state and federal standards related to the handling and disposal of lead debris and the clean-up and containment dust within the construction area.

4. List of Hazardous Substances

For specific information about the hazardous substances known to be present in the County Office and schools, employees may consult the MSDS.

5. Hazardous Nonroutine Tasks

When employees are required to perform hazardous nonroutine tasks, they shall first receive information about the specific hazards to which they may be exposed during this activity and the protective/safety measures which must be used. It shall be the contractor's responsibility to disseminate this information to his/her employees and subcontractors.

INTEGRATED PEST MANAGEMENT

Structural and landscape pests can pose significant problems to people, property, and the environment; however, the pesticides used to solve these problems carry their own risks. It is therefore the policy of the Lassen County Office of Education to use Integrated Pest Management (IPM) programs and procedures for control of structural and landscape pests.

Pests

Pests are living organisms (animals, plants or microorganism) that may interfere with human purposes for the school site. Strategies for managing pest populations will be influenced by the pest species and the degree to which that population poses a threat to people, property or the environment.

Pest Management

Pests will be managed to:

- Reduce any potential human health hazard or to protect against a significant threat to public safety
- Prevent loss or damage to school resources, structures or property.
- Prevent pests from spreading in the community, or to plant and animal populations beyond the school site
- Enhance the quality of life for students, staff, and others

Pest management strategies must be included in an approved pest management plan for the site.

Integrated Pest Management Procedures

IPM procedures will determine when to control pests, and whether to use physical, horticultural, or biological means. Chemical controls are used as a last resort. IPM practitioners depend on current, comprehensive information on the pest and its environment, and the best available pest control methods. Applying the IPM principles prevents unacceptable levels of pest activity and damage. These principles are implemented by the most economical means and with the least possible hazard to people, property and the environment.

It is the policy of the County Office to utilize IPM principles to manage pest populations adequately. While the goal of this IPM program is to reduce and ultimately eliminate use of toxic chemicals, toxic chemicals may become necessary in certain situations. The choice of using a pesticide will be based on a review of all other available options and a

INTEGRATED PEST MANAGEMENT (continued)

determination that these options are unacceptable or are infeasible, alone or in combination. Cost or staffing considerations alone will not be adequate justification for use of chemical control agents. The full range of alternatives, including no action, will be considered.

When it is determined that a pesticide must be used in order to prevent pest levels from exceeding action thresholds, the least hazardous material will be chosen. The applications of such pesticides is subject to the Federal Insecticide, Fungicide, and Rodenticide Act, Healthy schools Act of 2000 (AB2260), Environmental Protection Agency regulations in 40 CFR, Occupational Safety and Health Administration regulations, and state and local regulations.

Record Keeping

Records will be kept on the number of pests or other indicators or pest populations both before and after any treatments. Records must be current and accurate if IPM is to work. Records of pesticide use shall be maintained on site to meet the requirements of the state regulatory agency and County Office, and records will also document any non-toxic treatment methods being used. The objective is to create records from which programs and practices can be evaluated in order to improve the system and to eliminate ineffective and unnecessary treatments.

Notification

The County Office takes the responsibility to notify students' parents or guardians and the staff of upcoming treatments, which will involve a pesticide. Notices will be posted in designated areas at the school 24 hours prior to application and remain 72 hours thereafter.

Pesticide Storage and Purchase

Pesticide purchases will be limited to the amount authorized for use during the year. Pesticides will be stored and disposed of in accordance with the EPA-registered label directions and the State or Local regulations. Pesticides must be stored in an appropriate, secure site not accessible to students or unauthorized personnel. A cabinet in a non-student area with a locked and labeled door is advised. The door label should include a skull and crossbones, or other visual signals for non English reading adults or children.

Pesticide Applicators

Pesticide applicators must be educated and trained in the principles and practices of IPM and the use of pesticides approved by the County Office, and they must follow regulation and label precautions. Applicators must be certified and comply with this IPM Policy and Pest Management Plan. Under no circumstances should applications be made while school or school activities are in progress.

The supervising employee may submit his/her fingerprints to the Department of Justice pursuant to Education Code 45125.1.

3. Surveillance of employees of the entity by school personnel.

These requirements shall not apply if the County Superintendent or designee determines that the contracting entity is providing construction, reconstruction, rehabilitation or repair services in an emergency or exceptional situation, such as when student health or safety is endangered or when repairs are needed to make school facilities safe and habitable.
